

## **FITNESS SCORES**

Pulling from Important Scheduling Notes (ISN), we have generated scores for the following preferred time scheduling criteria:

### **1. ISN 4a**

Schedule at Times that Make Sense for the Students: If classes meet on Tuesdays and Thursdays, then it makes the most amount of sense to schedule sessions on Mondays and Wednesdays. If a class doesn't meet until late afternoon (i.e., Thursdays at 3pm), it is great to schedule one of the sessions on Thursday mornings. Plan ahead for when students are likely to have exams, and schedule MavPASS sessions at times they would normally use to study for such exams.

**Max Possible Score** = 2\* number of leaders with at least 2 in-person sessions

| Last session is held after the last course lecture | First session is held after the first course lecture | Scoring |
|----------------------------------------------------|------------------------------------------------------|---------|
| T                                                  | F                                                    | 0       |
| T                                                  | T                                                    | 1       |
| F                                                  | T                                                    | 2       |
| F                                                  | F                                                    | 1       |

Rules for single-day classes:

#### **Monday:**

- If the class is held at or after 10 am, then the first session should be on Monday before 10 am
- The last session should be held on Friday

#### **Tuesday:**

- If the Tuesday class is at or after 10 am, then the sessions should be held between Monday and the class period
- Otherwise, 1 session should be held on Friday

#### **Wednesday/Thursday:**

- Both sessions should be held before class

#### **Friday:**

- Both sessions should be held after Monday but before class Friday and also not on Friday.

### **2. ISN 4b**

Avoid Scheduling at "Bad" Times: It is best to schedule sessions on Mondays through Thursdays between 9 am and 8 pm. Fridays and sessions after 8 pm typically get low attendance.

**Max Possible Score** = 2 \* number of total sessions

| Session is held from Monday to Thursday | Session is held between 10 am and 8 pm(M-Th) or between 10 am and 3 pm | Scoring |
|-----------------------------------------|------------------------------------------------------------------------|---------|
| T                                       | F                                                                      | 1       |
| T                                       | T                                                                      | 2       |
| F                                       | T                                                                      | 1       |
| F                                       | F                                                                      | 0       |

### 3. ISN 3

Do NOT Schedule Same Subject Sessions at Same Times or Days: Schedule the same subject at *different times and days* in order to offer more opportunities for students to be able to attend. For example, there are multiple leaders that support the same course (i.e. ECON201) but have different professors. It is best to try not to schedule any of the ECON201 leaders on the same days or times. That way, students who are unable to attend their own MavPASS Leader's sessions may still be able to attend an ECON201 Leader who supports a different professor. Plus, if all of the ECON sessions are scheduled in the same physical location or the same Zoom room, obviously overlapping times would not be possible. When there are multiple sections of a course, it is also nice to offer variety in the days sessions are offered (i.e. don't schedule all of them on Mondays and Thursdays).

**Max Possible Score** = 2 \* (# of courses supported) – (# courses with over 5 sessions)

| Session is held on the same day as other MavPASS leaders for the same course | Session is held at the same time as other MavPASS leaders for the same course | Scoring |
|------------------------------------------------------------------------------|-------------------------------------------------------------------------------|---------|
| T                                                                            | T                                                                             | 0       |
| T                                                                            | F                                                                             | 1       |
| F                                                                            | T                                                                             | 1       |
| F                                                                            | F                                                                             | 2       |

### 4. ISN 2a

TWO Sessions Needed for MOST MavPASS Leaders: Please schedule TWO study sessions for each MavPASS Leader. These sessions should NOT be scheduled at times that will make it impossible for a student to attend if they have a scheduled class at that time (i.e. 9:00-9:50 MW). **A better option would be 9:00-9:50M and 2:00-2:50H since a class would never be scheduled in that way; in other words, this allows for the increased likelihood of students being able to attend one or the other.**

**Max Possible Score** = 2 \* Total # of Leaders

| All sessions are held at<br>different times | All sessions are held on<br>different days | Scoring |
|---------------------------------------------|--------------------------------------------|---------|
| T                                           | T                                          | 2       |
| T                                           | F                                          | 1       |
| F                                           | T                                          | 0 or 1  |
| F                                           | F                                          | 0       |
